

THE BRAINERD DISPATCH.

VOLUME 9, NUMBER 1.

BRAINERD, MINNESOTA FRIDAY, NOVEMBER 29, 1889.

INGERSOLL & WIELAND, PUBLISHERS

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick Headache, and Constipation—find a safe and certain relief in **Ayer's Pills**. In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and most beneficial within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills. —G. S. Wenderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive today if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since." —T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, I have been unable to find much relief. At last I tried Ayer's Pills, and soon I felt a duty and a pleasure in taking them. They have done me more good than any other medicine. I would not willingly be without them." —G. W. Brown, Chicago, Ill.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely cured all the ailments claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried." —Thomas F. Adams, Holly Springs, Texas.

The Alien and the Journal.

We have no desire to enter into a controversy with the editor of the Journal over his recent ill-advised "ignorant alien" article, much less to reply to his silly newspaper stories. We have no time or space for, nor do we think that the public is particularly interested in such matters. We insist, however, that the Journal did say exactly what this paper quoted it as saying, namely, that "where the integrity of the public service is about to be overthrown by an ignorant alien race, extreme measures are justifiable."

Whether the editor meant what he said or not we have no present means of knowing. He says he did not mean it. Let the public judge.

We also insist that the aforesaid editor, in his attempt last week to explain this unpleasant affair away, makes himself even more ridiculous, and therefore, more to be pitied, than ever. He finds fault with our use of the word "disfranchise," and claims that "an alien cannot be disfranchised because no alien is allowed to vote in this country." Now, if our hypocritical friend of the Journal will take the trouble to consult his dictionary, he will find that he himself is laboring under a mistaken idea as to the meaning and purpose of that word. It does not necessarily mean "to take away" a thing. It means as well "to deny or withhold" a thing from a person. It follows, then, that an alien may be disfranchised by simply denying or withholding from him the right of citizenship, and a citizen of this country may be disfranchised by taking that right from him. So, the gentle friar, in his attempt to "do" the Dispatch, is hoisted with his own petard, and that, too, very effectively. We again insist that the Journal is in error when it asserts that "no alien can vote in any of the states." We say that there isn't a single state of this Union in which aliens do not or may not, legally vote at all elections. Let us see. What is an alien?

At the sale at E. Morrisette's quite a lively time was had.

Leon Houde with his smiling face and long wavy hair, was seen on our streets the first of the week.

The marriage ceremony of Sam Crommy to Miss Anna Davis, was performed by the Hon. L. G. Rose at the residence of the bride's parents Nov. 23rd; congratulations will be gladly exchanged for cigars.

Miss Leonard is making preparations to attend school in St. Cloud.

Several families in this vicinity are afflicted with the diphtheria. Dr. Buchanan of Little Falls is attending them, and reports that the disease is of a mild form.

Liberty Cemetery.

The famous music band, Liberti and his magnificent band will give an entertainment at the Opera House in Brainerd next Saturday evening, Nov. 30. Those who visited Minneapolis last year remember Liberti and his band of sixty pieces. The Spokane Falls Review of the 19th inst., says:

"Last night a packed house enjoyed the first of the famous Liberti band concerts at the Concordia theater. The programme was one of unusual excellence and was throughout appreciated by the Spokane music loving public. The extraordinary enthusiasm of the audience speaks well for the musical taste of the city, for the selections were for the most part severely classical; consisting of such masterpieces as Rossini's 'William Tell' overture, Weber's 'Invitation to a Waltz,' a grand fantasia from Wagner's 'Lohengrin' and the magnificent overture from his famous opera 'Rienzi.' Signor Liberti's cornet solo drew forth an uncontrollable burst of applause, and he was compelled to respond to a double encore, playing the beautiful Scotch melody 'The Maid of Dundee' the last time. Just before the last number on the programme, the maestro announced that the programme for to-night would consist of both popular and classical selections, and he also took occasion to thank the audience for the cordial reception of himself and band."

Just a Trifle Previous.

The foresight of the Journal is improving with age as is evinced by an item in that paper of yesterday which says:

It is understood that Hon. J. C. Flynn, of Little Falls, Hon. Wm. E. Lee, of Long Prairie, and Hon. R. C. Dunn, of Princeton, will be candidates for the Republican nomination for state senator in this legislative district next fall. The Crow Wing county delegation will probably support either Mr. Flynn or Mr. Dunn. At present the chances seem to be in favor of the Princeton candidate, as far as the support of the Republicans of this county is concerned, but Mr. Flynn is mighty sly and will probably get the Crow Wing county delegation when the time comes.

It is readily seen why Bro. Stivers takes pains to give J. C. Flynn a black eye at every opportunity—the campaign of last fall and Mr. Stivers' defeat is responsible for that. It is entirely too early to foretell what the outcome of next fall's campaign will bring forth as there are several gentlemen in the district who are entitled to recognition besides the candidates which the democratic Journal has been pleased to place in the race, among whom are Hon. Leon E. Lam and Hon. W. A. Fleming. The Journal will endeavor from this time until after election to rub the feathers of republicanism in different parts of this sensational district by publishing articles the subject of which he is not thoroughly posted on. How does he know that the "Crow Wing county delegation will support either Mr. Dunn or Mr. Flynn?" The idea is absurd that any paper should at this time attempt to make a prediction as to what candidate any delegation will support a year hence.

ALL PLANTS and trees consume water in large quantities. Sir John Laws discovered that an acre of barley will take up 1094 tons of water in two days. Trees and plants are composed more largely of water than any other substance.

LEARDS present a strange phenomenon. Their tail, brittle and easily broken, lives for a considerable length of time after being separated from its bearer's body; and, more than that, the lost tail is in a comparatively short time replaced by another, similar to the amputated one.

THERE is a popular impression that bats and swallows carry around and distribute bedbugs. Dr. Joseph Leidy has often examined these creatures without finding any. He has, however, found a species of cinch in a swallow, that one might readily mistake for the genuine article.

LAST summer a hen belonging to Robert Mosley, of Crawfordville, Ind., hatched a brood of chickens out in the woods. When she brought them to the house a baby quail followed. It has grown up with the chickens, is no wilder than they are and goes to roost with them at night.

ST. PAUL has decided to build "the most fantastic ice palace ever known," and to have the biggest and finest carnival possible at a time to be set later. Financial backing in abundance has already been secured, and every indication points to the most successful carnival in the history of the Northwest.

A DUCK recently killed near James town, N. Y., has caused excitement in that region. In its crop was found a piece of gold quartz. The bird had been feeding on the borders of Chautauqua lake near by, and it is claimed that an examination of the locality revealed many more specimens of rich gold bearing quartz.

The purifying department of the Erie gas works is an efficient whooping cough hospital. The fumes of the spent time give immediate relief. The superintendent says: "Erie doctors now send whooping cough patients down here every day. Recently we had nineteen callers. All they returned home well."

JOE HOWARD says "no one who is unfamiliar with the police blotters of one station-house and the sad records of the lower courts, and the fearful scenes witnessed every day in every year by the prison officials, can understand the extent to which whiskey drinking is carried on by the winks of this generation."

The muskrat hearers reported to be high, and the fact is accepted by some weather-wise hunters as indicating a severe winter. Other observers say the high heaps indicate mildness. The probability is the heaps are evidence that when theras build them they found plenty of material, and also that they weren't at all lazy while the job was on hand.

An exchange pleads for a change of Thanksgiving Day from the cold and discomfort of the last Thursday in November to an earlier date. "It ought to be," says this paper "in the splendid days of October, when the world is brilliant, when outdoor games are a luxury, and there is a moon to make the night almost like a day." We would not have it a day later or a day earlier. It is just right now and please do not agitate the question of a change.

An impressive lesson for the United States comes from south Africa, where no rain has fallen for a year, and there is much suffering from want of water. Prof. Seeley, the American geologist, who has just made a tour of the country, says the same cause that ruined Egypt, Mesopotamia and India, one of the most fertile countries in the world, is at work in south Africa. It is the destruction of the timber, and the same cause that turned those countries into deserts is producing the same effect in south Africa. It is at work in the United States.

Pension Commissioner Rann dismissed W. S. Brock of the District of Columbia, and demanded the resignation of E. J. Eagle of Pennsylvania, assistant chief of the second division, and G. A. Bond of Pennsylvania, a clerk in the Western division. Hamilton Brew, Jr., a New York assistant chief of the pension office, was allowed to resign. Mr. Brock was chief clerk of the pension office, and was dismissed with a pension of \$1,800. Messrs. Bond and Eagle were among the thirty clerks in the pension office who were dismissed. Mr. Phillips, who was \$6 to \$24 per month.
